HOW TO CITE RULES AND RSMO

RULES

The rules are codified in the *Code of State Regulations* in this system–

Title	CSR	Division	Chapter	Rule
3 Department	<i>Code of State Regulations</i>	10- Agency division	4 General area regulated	115 Specific area regulated

and should be cited in this manner: 3 CSR 10-4.115.

Each department of state government is assigned a title. Each agency or division in the department is assigned a division number. The agency then groups its rules into general subject matter areas called chapters and specific areas called rules. Within a rule, the first breakdown is called a section and is designated as (1). Subsection is (A) with further breakdown into paragraphs 1., subparagraphs A., parts (I), subparts (a), items I. and subitems a.

The rule is properly cited by using the full citation; for example, 3 CSR 10-4.115, NOT Rule 10-4.115.

Citations of RSMo are to the *Missouri Revised Statutes* as of the date indicated.

Code and Register on the Internet

The *Code of State Regulations* and *Missouri Register* are available on the Internet.

The *Code* address is sos.mo.gov/adrules/csr/csr

The *Register* address is sos.mo.gov/adrules/moreg/moreg

These websites contain rulemakings and regulations as they appear in the *Code* and *Registers*.

The text of proposed rules and changes will appear under this heading. A notice of proposed rulemaking is required to contain an explanation of any new rule or any change in an existing rule and the reasons therefor. This explanation is set out in the PURPOSE section of each rule. A citation of the legal authority to make rules is also required, and appears following the text of the rule, after the word "Authority."

Entirely new rules are printed without any special symbology under the heading of proposed rule. If an existing rule is to be amended or rescinded, it will have a heading of proposed amendment or proposed rescission. Rules that are proposed to be amended will have new matter printed in boldface type and matter to be deleted placed in brackets.

An important function of the *Missouri Register* is to solicit and encourage public participation in the rulemaking process. The law provides that for every proposed rule, amendment, or rescission there must be a notice that anyone may comment on the proposed action. This comment may take different forms.

If an agency is required by statute to hold a public hearing before making any new rules, then a Notice of Public Hearing will appear following the text of the rule. Hearing dates must be at least thirty (30) days after publication of the notice in the *Missouri Register*. If no hearing is planned or required, the agency must give a Notice to Submit Comments. This allows anyone to file statements in support of or in opposition to the proposed action with the agency within a specified time, no less than thirty (30) days after publication of the notice in the *Missouri Register*.

An agency may hold a public hearing on a rule even though not required by law to hold one. If an agency allows comments to be received following the hearing date, the close-of-comments date will be used as the beginning day in the ninety- (90-) day count necessary for the filing of the order of rulemaking.

If an agency decides to hold a public hearing after planning not to, it must withdraw the earlier notice, file a new notice of proposed rulemaking, and schedule a hearing for a date not less than thirty (30) days from the date of publication of the new notice.

Proposed Amendment Text Reminder:

Boldface text indicates new matter.

TITLE 7 – MISSOURI DEPARTMENT OF TRANSPORTATION

Division 10 – Missouri Highways and Transportation Commission

Chapter 25 – Motor Carrier Operations

PROPOSED AMENDMENT

7 CSR 10-25.020 Oversize/Overweight Permits. The Missouri Highways and Transportation Commission is amending the purpose statement and sections (1) through (4), (6), and (9) through (16).

PURPOSE: This amendment relaxes the width threshold for over-dimensional movement when traveling on weekends and at night, increases the threshold for overlength escort vehicles and creates a new graduated requirement, simplifies holiday travel restrictions, redefines travelway descriptors, authorizes the use of roadway geometric modeling software applications, adopts a recognized time reference authority for determining sunrise and sunset, and codifies existing travel requirements into the rule.

PURPOSE: This rule provides a uniform system for issuing special permits to regulate vehicles used on [the] state highways [which] that when loaded exceed the limitations on length, width, height, and/or weight established in Chapter 304, RSMo.

(1) General Regulations for Oversize/Overweight Permits.

(B) Except for the following exceptions, [P]ermits will not be granted for travel on the state highway system for movement of a load reducible in size or weight[, except for—]. Reducible portions of any oversize or overweight load shall include but are not limited to any attachment, accessory, member, or assembly designed to be detached with hand tools:

1. Farm products (hay), and farm equipment with dual tires, and construction equipment with blade/bucket attached, but only as permitted in sections (6) and (10);

2. Emergency response vehicles loaded with salt, sand, chemicals, or a combination thereof, with or without a plow or blade attached in front, and being used for the purpose of spreading the material on state highways that are or may become slick or icy;

3. Military vehicles transporting marked military equipment or material[. Reducible portions of any oversize or overweight load shall include, but are not limited to, any attachment, accessory, member, or assembly designed to be detached with hand tools]; or

4. A vehicle carrying raw fluid milk products from a farm and/or raw milk products to or from a milk plant, receiving station, or transfer station.

(D) Economic factors in either the saving of time or costs for routing will not be considered of primary importance in the routing process, and the department reserves the right to designate routing and travel time for all movements. Safety, structure capacities and clearances, roadway widths, and traffic volumes will all be considered in route determination. The routing will primarily use the designated state highway system and be as direct as possible. When [other] streets or highways off the state highway system are used, it will be the responsibility of the applicant to obtain approval from the agency responsible for that off-state highway and adhere to all bridge capacity postings off the state highway system.

(H) Each single trip permit covers the movement of one (1) load only, between one (1) origin and one (1) destination, except for the multi-stop permit designed for transportation of farm implement delivery only [(legal loads are not considered for multi-stop permits since permits are not required for legal loads)]. Legal size loads will not be permitted as part of a multi-stop permit. Moves must be completed in seven (7) moving days.

(I) Movement is restricted on the following holidays: New Year's Day (January 1), Memorial Day (last Monday in May), Independence Day (July 4 or designated day of observation), Labor Day (first Monday in September), Thanksgiving Day (fourth Thursday in November), and Christmas Day (December 25).

1. [The r]Restrictions [for Thanksgiving] will begin at 12:00 noon on [Wednesday] the last business day preceding the holiday and apply until one-half (1/2) hour before sunrise on the first business day following [Monday] observation. When Independence Day falls on a Saturday, the holiday will be observed on the preceding Friday. When Independence Day falls on a Sunday, the holiday will be observed on the following Monday.

[2. When Christmas and/or New Year's Day fall on Friday or Saturday, the restriction will begin at 12:00 noon on the day preceding the holiday. Movement will resume one-half (1/2) hour before sunrise the following Monday. When Christmas and/or New Year's Day fall on Sunday, the restriction will begin at 12:00 noon on the preceding Friday. Movement will resume one-half (1/2) hour before sunrise the following Monday.

3. In the event Independence Day falls on Saturday, the restriction begins at 12:00 noon on the preceding Friday. Movement will resume one-half (1/2) hour before sunrise the following Sunday. If Independence Day falls on Sunday, the restriction begins at 12:00 noon on the preceding Saturday. Movement will resume one-half (1/2) hour before sunrise the following Monday.

4. On all holidays not mentioned in paragraphs (1)(I)1., 2., and 3., the restriction will begin at 12:00 noon on the day

preceding the holiday. Movement will resume one-half (1/2) hour before sunrise on the day following the holiday.]

(L) All references to recognized sunrise and sunset times, as applicable to the travel restrictions herein, shall be in accordance with the National Oceanic and Atmospheric Administration – National Weather Service.

(M) References to highway types utilized throughout this rule shall mean the following:

1. Divided highway—A travelway with two (2) or more traffic lanes in opposing directions separated by a physical barrier, raised curbed median, or depressed earth/vegetated median;

2. Multilane undivided highway—A travelway with two (2) or more traffic lanes in opposing directions that is not separated by a median or other physical barrier. Undivided highways are typically delineated by pavement markings only; and

3. Two- (2-) lane highway—A travelway typically with one (1) traffic lane in each opposing direction. This definition includes travelways with intermittent or directionally alternating continuous third lane sections designed to facilitate turning, climbing, passing, and/or other traffic management purposes.

(2) Financial Responsibility.

(B) [Cargo.] Any automobile insurance policy required under this administrative rule shall not include coverage of the cargo transported under the permit, and instead, any cargo transported by the applicant under a permit issued under this administrative rule shall be insured under a separate insurance policy.

(C) [Failure to Comply.] The Motor Carrier Services' director or his/her representative may reject an applicant's request for a permit or suspend the applicant's privileges of obtaining oversize/overweight permits for failure to comply with this section of the rule.

(D) [Excessive Overweight.] Permits issued for excessive overweight may require additional financial responsibility to protect the state in regard to excessive damage to the state highway system and its facilities.

(3) Agreements and Conditions.

(A) The permittee agrees to the following conditions when a permit is issued:

1. The permittee named therein agrees to assume full responsibility for injury to persons or damage to public or private property, including the state highway system and its facilities, caused by the movement of the vehicle or its load under the special permit involved;

2. The permittee agrees to hold harmless the Missouri Highways and Transportation Commission, the Missouri Department of Transportation, the Missouri State Highway Patrol, their agents, servants, and employees, from any and all claims, judgments, damages, or expenses of any kind on the part of the applicant, permittee, or any person, firm, or corporation having an interest in either the vehicle, the load, or other property involved in the movement over the route prescribed in said permit;

3. The permittee, as a condition to the issuance of a special permit, agrees to indemnify the Missouri Highways and Transportation Commission, the Missouri Department of Transportation, the Missouri State Highway Patrol, their agents, servants, or employees, for any sums which it, its agents, servants, or employees are or may be required to expend in defense of any claims or actions for damages and to indemnify the Missouri Highways and Transportation

Commission, the Missouri Department of Transportation, the Missouri State Highway Patrol, their agents, servants, or employees, arising out of the movement, under this special permit, of a vehicle or load over the route prescribed by the Missouri Department of Transportation, its agents, servants, or employees;

4. The permittee will cause the operators of all motor vehicles involved in the movement to take all necessary precautions to avoid hazards existing along the prescribed route, such as, but not limited to, construction projects, physical restrictions, or conditions which will not permit the movement of the vehicle and its load without detriment to the state highway or its drainage structure, signs, guardrails, signals, shoulders, pavement, right-of-way, or any other facility;

5. The permittee or their representative **may utilize a roadway geometric modeling software application, as approved by the department,** or must physically drive the proposed route to be used prior to issuance and attest that all turns, curves, etc. can be safely negotiated if the load is greater than one hundred fifty feet (150') long. If the load encounters problems negotiating such route during transportation, the company will be charged new permit fees (including a bridge study analysis for superloads). In addition, penalties may be assessed and future permit applications may be denied;

6. Should the permittee or the permittee's officers, agents, employees, or operators encounter a condition on the route prescribed not contemplated by the permit, or signs or markings indicating an emergency condition creating a reasonable doubt as to the continuance of the trip, the permittee, officer, agent, employee, or operator of the vehicle shall immediately notify the appropriate official or employee of Motor Carrier Services Division of the Missouri Department of Transportation for a suggested course of action. In any event, departure from a prescribed route, except by specific authorization of Motor Carrier Services Division, renders the permit void;

7. Any misrepresentation in the application for a special permit or any operation not made in strict compliance with the permit and not in compliance with 7 CSR 10-25.020, except as specifically exempted, is unlawful and renders the permit void;

8. Any permit used for a movement other than that for which granted, or any permit that has been altered, is void in its entirety and the movement involved will be in violation of the law, as though such permit had never been granted;

9. Permits voided by a violation shall be surrendered to any law enforcement officer or to any employee of the Missouri Department of Transportation;

10. A new permit and required fees covering the remainder of the movement will not be issued until all charges arising out of the violation have been satisfied and the routing or movement modified to meet the regulations established herein;

11. Permits are issued by authority of law only when the public safety or public interest justifies their issuance. Any misrepresentation in the application or violation of the terms of the permit may result in denial of future applications of the violator;

12. (I) Flagging is required whenever the dimensions of overwidth loads are equal to or exceed the width of the traveled lane on two- (2-) lane bridges or whenever the movement is of such width or length that it infringes on the adjacent lane of traffic. The operator of the escort vehicle may act as the flagger. On shorter bridges it may not be necessary to actually stop traffic if sight distance is good, but on longer bridges or where sight distance is short, a flagger shall be used to direct traffic and be prepared to stop traffic, if necessary. A flagger is also required if the permitted vehicle and load must stop due to a breakdown with all or part infringing on the traveled roadway. Additional traffic control may be required for large complex moves. All traffic control devices shall meet the requirements listed in the *Manual on Uniform Traffic Control Devices* (MUTCD), which is incorporated *[herein]* by reference and made a part of this rule as published by the Federal Highway Administration (FHWA), 1200 New Jersey Ave., SE, Washington, DC 20590, revised *[May 2012]* **December 2023**. The oversize load sign may be split or otherwise configured to accommodate crash-avoidance technology. When the overall length of a combination unit exceeds *[ninety]* **one hundred ten feet (90/110')** or the overall length of a single unit exceeds fifty feet (50'), an oversize load sign is required on the rear of the load. The sign's background shall be yellow with black lettering. The legend for these signs shall read "OVERSIZE LOAD" or "WIDE LOAD";

(C) Overheight permits for all movements will be limited to a nonreducible combination of vehicle and load height not exceeding the vertical clearance of the structures on the most feasible direct route between origin and destination. Arrangements for the raising or removal of overhead lines, **traffic control devices, and other structures** will be the

[This movement will require a front and a rear escort on all two- (2-) lane and multi-lane undivided state highways. A rear escort is required on interstate and other dual lane divided state highways.]** Oversize load signs are required and shall be lighted or reflectorized. Clearance lights in lieu of flags shall be mounted at extreme ends or load projections when moving after daylight hours and/or when visibility is less than five hundred feet (500'). Continuous, uninterrupted two- (2-) way communication is required between the power unit and all escort vehicles. Movement is restricted for urban and tourist areas as outlined in subsections (9)(D) and (9)(E). Movement is restricted for holiday periods as outlined in subsection (1)(I).

overall width.

(B) Escort Requirements. One (1) escort is required for each oversize unit on the *[interstate and designated route] highway* system. This escort shall be in the rear on *[dual-lane,] divided[,]* or multi-lane *[pavement] undivided highways* and in the front on two- (2-) lane *[pavement] highways. [Travel on two- (2-) lane routes off the designated route system will require two (2) escorts (one (1) front and one (1) rear).]* Continuous, uninterrupted two- (2-) way communication is required between the power unit and all escort vehicles.

(14) Regulations for the movement of loads over fourteen feet (14') to sixteen feet (16') overall width. The following requirements, in addition to the requirements of oversize and overweight permit regulations for movement of loads up to *[twelve feet, six inches (12'6")] fourteen feet (14')* in width, shall apply to the movement of allowed loads. Farm products (hay) shall not exceed fourteen feet (14') in width.

(A) Routes over which these loads will be considered are highways with pavement at least twenty-four feet (24') wide with at least four foot (4') shoulders and travel on routes of lesser width shall be for the shortest practical distance to complete the move, unless traffic volume, roadway alignment, and/or other circumstances justify alternate routing.

[1. Travel on interstate and other divided highways allowed from one-half (1/2) hour before sunrise to one-half (1/2) hour after sunset, except where restricted in tourist and urban areas (see subsections (9)(D) and (E)); and movement is limited to Monday through Friday except as prohibited by holiday restrictions (see subsection (1)(I)).]

2. Movement is further restricted from 6:30 a.m. to 9:00 a.m. and 3:30 p.m. to 6:00 p.m. on all other routes on the state highway system.]

(15) Super Heavy and Large Load Movement. Loads in excess of routine permit limits will be considered according to the following regulations when air, rail, or water terminal points are not available:

(A) All permit applications with dimensions or weights exceeding the routine limits of the preceding oversize and overweight permit rule (generally in excess of sixteen feet (16') wide, sixteen feet (16') high, one hundred fifty feet (150') long and/or over one hundred sixty thousand (160,000) pounds gross weight) shall be submitted *[by fax or online] electronically*, along with *[proof of] insurance coverage information*. If any problems exist that may prevent the move from reaching its destination over the state highway system, the application will not be approved;

(E) If it is necessary to adjust, modify, or remove state-owned property such as signal and sign mast arms, flashers, signs, etc., a qualified contractor approved by the Missouri Department of Transportation shall be hired by the applicant to perform the necessary adjustment or removal and replacement. **Inspection and repair assessments may be levied against**

the utility contractor to recover all costs encumbered by the department and to ensure all state-owned property is restored to its original functioning condition;

(F) Restrictions and Requirements.

1. Travel on interstate and other divided highways allowed from one-half (1/2) hour before sunrise to one-half (1/2) hour after sunset except where restricted in tourist and urban areas (see subsections (9)(D) and (9)(E)) and as prohibited by holiday restrictions in subsection (1)(I).

4. Unless otherwise stated on the permit, dates and times of travel will be determined by the Missouri State Highway Patrol if the load requires their escort services;

(G) Escort Requirements. If Missouri State Highway Patrol escorts are required for a continuous portion of the move, but not the entire move, they are only required for that portion. If the patrol escort is required for an intermittent portion of the move, they will be required to escort the entire move. In addition to escort requirements as outlined in subsection (9)(G), the following requirements apply to super heavy and large load movements. No more than three civilian escorts are required for any combination of paragraphs 1. through 4. below:

Bridges posted with a maximum weight limit of less than forty (40) tons should be avoided and will be analyzed for the type of vehicle and load prior to receiving approval to cross that bridge. All axles on the hauling unit shall be load carrying with a maximum degree of equalization. The district engineer or his/her representative shall determine whether or not the hauling unit, number of axles, and axle arrangements are acceptable. 10 CSR 90-2.070 Fencing on Park-Owned Property. The department is amending subsection (2)(D).

PURPOSE: This amendment modifies the requirements for variances and who can approve them within the division and removes the word “precise” as it is overly restrictive.

(2) The division may participate in fencing park and historic site boundaries for the purpose of preventing intrusion from livestock or commercial game in accordance with Chapter 272, RSMo. Fencing requests shall be submitted in writing and approved by the director or his/her designee. The division's procedures for participating in fencing of park and historic site boundaries for this purpose are as follows:

(D) The landowner shall receive written notification of approval or denial of their request from the division within **sixty** (60) days of receipt of the Fencing Request Form at the above division address.

1. If approved, the landowner shall be responsible for fence construction and to utilize fence construction methods that do not damage trees, structures, soil, wetlands, habitat for sensitive species, geologic, cultural, historic, and other resources that occur within the park or historic site boundary. Fence construction methods shall not employ modification of soil or debris elevations that drain wetlands or cause the impoundment of water on property owned by the department. The fence must be located on the *[precise]* boundary line to the extent that the line can be identified or verified. *[The district supervisor in consultation with the Operations and Resource Management Program shall approve, in writing, any variances to these requirements]* **Any variances to these requirements must be approved, in writing, by the director or his/her designee.**

2. The division, at its own expense, will provide all fence construction materials to the landowner and shall monitor the construction activities to ensure compliance with this section. The cost of fence material shall constitute the department's share of costs to provide an enclosure as provided for in 272.020 and 272.060, RSMo.

3. The landowner and its successors are responsible for maintaining the fence, which shall include removing brush, vines, woody regrowth or resprouting of approved cut trees

on state park property at no greater a distance than three feet (3') inside the park boundary. The landowner is not permitted to access park property with brushhogs, tractors, heavy equipment, ATVs, motorcycles, or any other vehicle of any kind without permission from the park or historic site facility manager. The landowner is not permitted to apply any herbicides for purposes of killing or controlling vegetation on the park side of the boundary, or which may drift onto park vegetation without permission of the park facility manager. The landowner is permitted to trim back overhanging branches at the point immediately above the park boundary line and to a height of eight feet (8') above the ground.

4. No fencing constructed under this section shall be removed without the written consent of the division, except to temporarily make repairs to said fence.

TITLE 20 – DEPARTMENT OF COMMERCE AND INSURANCE
Division 2085 – Board of Cosmetology and Barber Examiners

Chapter 12 – Schools and Student Rules – Barber and Cosmetology

ORDER OF RULEMAKING

By the authority vested in the Board of Cosmetology and Barber Examiners under section 329.025, RSMo Supp. 2023, the board amends a rule as follows:

20 CSR 2085-12.010 General Rules and Application Requirements for All Schools **is amended**.

No changes have been made to the text of the proposed amendment, so it is not reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The board received two (2) comments on the rule.

COMMENT #1: The board received a comment from Heath Clarkston, Missouri Association of Cosmetology Schools. Mr. Clarkston expressed concern based on changing regulatory framework from the federal level which may impact the financing of students attending state programs. He further suggests, if moving forward with this rule, limiting distance learning to no more than ten percent (10%) of total number of hours needed to graduate. Limiting the number of distance learning hours will eliminate the potential for a school to suggest that up to fifty percent (50%) of the required hours to graduate be completed in distance learning.

RESPONSE: The rule allows fifty percent (50%) of theory hours to be completed by virtual learning to allow students some flexibility as they complete their education. This rule will assist schools, instructors, and students in their efforts to complete programs of cosmetology and barbering. It does not specify synchronous or asynchronous learning requirements so it would be able to follow any federal law requirement set forth should the federal Department of Education’s proposed rule become effective. The board will closely watch percentage of hours completed with schools and the pass/fail rates of first-time exam results for students and adjust as necessary. No changes have been made to this rule as a result of this comment.

COMMENT #2: The board received a comment from Greg Kellogg, The Paul Mitchell School Springfield, Missouri. Mr. Kellogg emailed to express his excitement of implementing the new distance learning rule for his schools. He stated that ninety percent (90%) of all students who enroll in his schools have successfully completed some form of online/distance education in high school or college. His students ask constantly about the ability of Paul Mitchell Schools having the opportunity to offer distance education.

RESPONSE: The rule proposes the potential of completing fifty percent (50%) (maximum) theory hours in the program’s curriculum for theory. The board recognizes Mr. Kellogg’s comments that reflect the position of a number of schools that approached the board prior to the proposal of this rule. No changes have been made to this rule as a result of this comment.

**TITLE 20 – DEPARTMENT OF COMMERCE AND
INSURANCE**

**Division 4240 – Public Service Commission
Chapter 2 – Practice and Procedure**

ORDER OF RULEMAKING

By the authority vested in the Public Service Commission under section 386.410, RSMo 2016, the commission amends a rule as follows:

20 CSR 4240-2.075 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on May 1, 2024 (49 MoReg 651). Those sections with changes are reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The public comment period ended May 31, 2024, and the commission held a public hearing on the proposed amendment on June 4, 2024. The commission received four (4) written comments. Twelve (12) comments were received at the hearing.

COMMENT #1: Emily Wilbur on behalf of the Missouri Department of Natural Resources—Division of Energy (DE) filed written comments opposed to the proposed change requiring all potential intervenors to explain why it takes no position and when it expects to be able to assert a position. DE states that this language could preclude its participation where it may intervene only to provide information on a topic and not to take a position on an issue. DE proposed revising the amendment by deleting the phrase requiring potential intervenors to state when such a position could be asserted.

RESPONSE AND EXPLANATION OF CHANGE: The commission finds the language will not be as restrictive as DE suggests. However, the commission will add language to subsection (2)(F) so that an entity intervening only to provide or receive information may state that instead of stating when it expects to take a position.

COMMENT #2: Public Counsel Marc Poston on behalf of the Office of the Public Counsel (OPC) filed written comments and John Clizer for OPC provided comments at the hearing. OPC commented that it supports an expansive and lenient application of the rule regarding intervention. OPC suggests the proposed amendment may make intervention more difficult for potential intervenors and, thus, opposes the amendment. OPC urges the commission to use the working group process at the commission before amending these rules. RESPONSE: The commission finds that the proposed amendment will not create an additional barrier to intervention because it only requires explanation as to why a position cannot be asserted and when the intervenor expects to be able to assert a position. This information will help the commission to determine if allowing the intervention is in the public interest. If an intervenor does not know when it might assert a position, it can state so to comply with this requirement. No change was made as a result of this comment.

COMMENT #3: Sreenivasa Rao Dandamudi on behalf of Spire Missouri Inc. filed written comments and Scott Weitzel for Spire provided comments at the hearing in support of this amendment.

RESPONSE: The commission thanks Spire for its comments. No change was made as a result of this comment.

COMMENT #4: John Coffman on behalf of the Consumers Council of Missouri filed written comments and commented at the hearing generally in support of the amendment. Consumers Council states that requiring an intervenor to state its position when it intervenes as well as requiring an intervenor to explain why it cannot state its position are reasonable. Consumers Council asks the commission to continue to be liberal in granting intervention and to keep in mind that many intervenors such as Consumers Council will not know its position until it gets the information from the utilities as the case progresses. Further, those intervenors will not have access to the confidential information until granted intervention. It is Consumers Council's opinion that the commission should hold a "workshop" proceeding before beginning any substantial change to commission rules.

RESPONSE: The commission agrees with Consumers Council that requiring a statement of an intervenor's position up front is reasonable. This information will help the commission to determine if allowing the intervention is in the public interest. No change was made as a result of this comment.

COMMENT #5: Tim Opitz on behalf of the Midwest Energy Consumers Group (MECG) commented and provided written reply comments at the hearing. MECG stated that it had no strong opposition to the proposed amendment. MECG commented that it agrees with the comments of OPC and Consumers Council, and does not oppose the comments of DE. RESPONSE: The commission thanks MECG for its comments. No change has been made as a result of this comment.

COMMENT #6: Jim Fischer on behalf of Evergy Missouri Metro and Evergy Missouri West (collectively referred to as "Evergy") commented that it had no objection to the proposed amendment. Evergy made general comments about the way the commission determines who should be allowed to intervene and encouraged the commission to have a liberal intervention policy.

RESPONSE: The commission thanks Evergy for its comments. No change was made as a result of this comment.

COMMENT #7: James Owen on behalf of Renew Missouri commented at the hearing that Renew Missouri had no opposition to the amendment. Renew Missouri stated that it agreed with the comments of OPC, Consumers Council, and Evergy that the commission should continue to allow liberal intervention.

RESPONSE: The commission thanks Renew Missouri for its comment. No change was made as a result of this comment.

COMMENT #8: Diana Plescia on behalf of the Missouri Industrial Energy Consumers (MIEC) commented that because it is an association of large industrial customers and not every member participates in each case, it may take months to fully determine what, if any, specific position one of its members will take in a commission case. Therefore, MIEC encourages the commission to have a liberal intervention policy.

RESPONSE: The commission thanks MIEC for its comments. No change was made as a result of this comment.

COMMENT #9: Bruce Morrison an attorney with the Great Rivers Environmental Law Center commented at the hearing in opposition to the amendment. Mr. Morrison stated that he had concerns the changes may create an unintended barrier to intervention. Mr. Morrison agreed with other commenters

that the commission should have a liberal intervention policy and that not-for-profit entities like those he represents may need additional time to formulate a position.

RESPONSE: The commission finds that the proposed amendment will not create an additional barrier to intervention because it only requires explanation as to why a position cannot be asserted and when the intervenor expects to be able to assert a position. This information will help the commission to determine if allowing the intervention is in the public interest. If an intervenor does not know when it might assert a position, it can state so to comply with this requirement. No change was made as a result of this comment.

COMMENT #10: Dana Gray on behalf of the Tower Grove Community Development Corporation commented at the hearing in opposition to the amendment. Tower Grove stated that it agreed with the comments made at the hearing by Renew Missouri, Consumers Council, and Bruce Morrison.

RESPONSE: The commission finds that the proposed amendment will not create an additional barrier to intervention because it only requires explanation as to why a position cannot be asserted and when the intervenor expects to be able to assert a position. This information will help the commission to determine if allowing the intervention is in the public interest. If an intervenor does not know when it might assert a position, it can state so to comply with this requirement. No change was made as a result of this comment.

COMMENT #11: Terry Jarrett on behalf of the Missouri School Boards Association (MSBA) commented at the hearing in opposition to the amendment. MSBA stated that it agreed with the comments of Consumers Council, Renew Missouri, OPC, MEGC, and Everygy.

RESPONSE: The commission thanks MSBA for its comments. No change was made as a result of this comment.

COMMENT #12: Peggy Whipple on behalf of the Missouri Electric Commission (MEC) commented at the hearing in opposition to the amendment. MEC stated that it agreed with the comments of Consumers Council, Renew Missouri, OPC, MEGC, and Everygy.

RESPONSE: The commission thanks MEC for its comments. No change was made as a result of this comment.

COMMENT #13: Scott Stacey with Staff Counsel's Office of the commission commented in support of the amendment. Mr. Stacey commented that the commission has legal authority to make rules governing the proceedings before the commission. Mr. Stacey commented that he does not agree that the amendment would limit intervention in commission cases. Mr. Stacey commented that the amendment would only require more information be provided up front.

RESPONSE: The commission agrees with Mr. Stacey's comments that the proposed amendment will not limit intervention. No change was made as a result of this comment.

TITLE 20 – DEPARTMENT OF COMMERCE AND INSURANCE

Division 4240 – Public Service Commission Chapter 2 – Practice and Procedure

ORDER OF RULEMAKING

By the authority vested in the Public Service Commission under section 386.410, RSMo 2016, the commission amends a rule as follows:

20 CSR 4240-2.115 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on May 1, 2024 (49 MoReg 651). Those sections with changes are reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The public comment period ended May 31, 2024, and the commission held a public hearing on the proposed amendment on June 4, 2024. The commission received three (3) written comments. Nine (9) comments were received at the hearing.

COMMENT #1: Public Counsel Marc Poston on behalf of the Office of the Public Counsel (OPC) filed written comments and John Clizer for OPC provided comments at the hearing. OPC commented that the phrase “with specificity” might cause issues with applying the rule as amended. OPC suggests the commission omit the phrase “with specificity.” OPC proposes alternative language requiring the objector to identify the specific provisions of the stipulation and agreement that are objected to and provide a reason for each objection. OPC also opposes the proposed changes put forth by Spire Missouri Inc. in its written comments.

RESPONSE AND EXPLANATION OF CHANGE: The commission agrees with the comment of OPC and will adopt a slight change to subsection (2)(B) similar to the language suggested by OPC to clarify the rule.

COMMENT #2: Sreenivasa Rao Dandamudi on behalf of Spire Missouri Inc. filed written comments and Scott Weitzel for Spire provided comments at the hearing in support of the amendment. Spire also provided additional amendment language to amend subsections (2)(B) and (2)(D) with regard to limiting the issues a party can object to and the amount of deference to be given to objections.

RESPONSE: There was significant opposition to Spire's proposed changes and the commission will decline to make such substantive changes to the rule without first publishing the changes for comment and further consideration. No change was made as a result of this comment.

COMMENT #3: John Coffman on behalf of the Consumers Council of Missouri filed written comments and commented at the hearing generally in support of the amendment. Consumers Council states that requiring specificity when a party objects to a non-unanimous stipulation and agreement is good practice. Consumers Council agrees with OPC's proposed changes. Consumers Council opposes Spire's proposed

amendments to the rule because they are beyond the scope of this rulemaking proceeding and would infringe on the due process rights of some parties in commission proceedings. It is Consumers Council's opinion that the commission should hold a "workshop" proceeding before beginning any substantial change to commission rules.

RESPONSE: The commission is making changes similar to the language suggested by OPC and is not making the changes proposed by Spire. No change has been made as a result of this comment.

COMMENT #4: Tim Opitz on behalf of the Midwest Energy Consumers Group (MECG) commented and provided written reply comments at the hearing. MECG stated that it had no strong opposition to the proposed amendment. MECG commented that it supports the comments of OPC and Consumers Council, and opposes the comments of Spire. MECG explained in detail why it was opposed to Spire's additional proposed rule changes.

RESPONSE: The commission is making changes similar to the language suggested by OPC and is not making the changes proposed by Spire. No other change has been made as a result of this comment.

COMMENT #5: James Owen on behalf of Renew Missouri commented at the hearing that Renew Missouri had no opposition to the amendment. Renew Missouri also commented that the commission should have more collaboration with the stakeholders before proceeding with rule changes. Renew Missouri commented that the commission should allow liberal participation in and objections to stipulations and agreements.

RESPONSE: The commission thanks Renew Missouri for its comments. No change was made as a result of this comment.

COMMENT #6: Diana Plescia on behalf of the Missouri Industrial Energy Consumers (MIEC) agrees with OPC's comments and opposes the changes proposed in the written comments of Spire. MIEC commented that because it is an association of large industrial customers and not every member participates in each case, it may take months to fully determine what, if any, specific position one of its members will take in a commission case. Therefore, MIEC opposes Spire's proposed additional changes to the rule.

RESPONSE: The commission thanks MIEC for its comments. No change was made as a result of this comment.

COMMENT #7: Terry Jarrett on behalf of the Missouri School Boards Association (MSBA) commented at the hearing that it agreed with the comments of Consumers Council, Renew Missouri, OPC, and MECG.

RESPONSE: The commission thanks MSBA for its comments. No change was made as a result of this comment.

COMMENT #8: Peggy Whipple on behalf of the Missouri Electric Commission (MEC) commented at the hearing in opposition to the amendment. MEC stated that it agreed with the comments of Consumers Council, Renew Missouri, OPC, MECG, and Evergy.

RESPONSE: The commission thanks MEC for its comments. No change was made as a result of this comment.

COMMENT #9: Scott Stacey with Staff Counsel's Office of the commission commented in support of the amendment. Mr. Stacey commented that the commission has legal authority to make rules governing the proceedings before the commission. Mr. Stacey commented that the amendment would not

prohibit any party from making objections, but would require the parties objecting to clearly state which provisions it found objectionable and why.

RESPONSE: The commission agrees with Mr. Stacey's comments that the proposed amendment will not limit objections to stipulations and agreement but will help to clarify what those objections are. No change was made as a result of this comment.

20 CSR 4240-2.115 Stipulations and Agreements.

(2) Nonunanimous Stipulations and Agreements.

(B) Each party shall have seven (7) days from the filing of a nonunanimous stipulation and agreement to file an objection to the nonunanimous stipulation and agreement. The objecting party shall identify the specific provision of the stipulation and agreement that is objected to and provide a reason for each objection. Failure to file a timely objection shall constitute a full waiver of that party's right to a hearing.

This section may contain notice of hearings, correction notices, public information notices, rule action notices, statements of actual costs, and other items required to be published in the *Missouri Register* by law.
